

POWERGLIDE

OIL PAN

H I G H P E R F O R M A N C E T R A N S M I S S I O N P A R T S

FEATURES & BENEFITS:

- Pan formed from .125" thick aluminum
- Seamless construction
- Wedge-shape design for additional ground clearance
- Two quarts extra fluid capacity

Part No.

28801-S

Pan Kit includes:

*½" NPT male to ⅜" NPT
Female Reducing Bushing
⅜" NPT Socket Pipe Plug
½"-20 Magnetic Drain Plug
& Nylon Sealing Washer*

Also available:

Oil Pickup Extension Kits

Part No.

28801-S09K

*For GM valve body using
GM filter*

Part No.

28801-S10K

*For GM valve body using
Chrysler filter*

Part No.

28801-S11K

*For Hipster valve body using
Chrysler filter*

Powerglide Oil Pan Stud Kit

Part No.

28711-01K

PART SUMMARY

Sonnax now offers this high-quality, lightweight aluminum oil pan for GM Powerglide transmissions. The pan has a wedge shape that allows for two extra quarts of oil capacity without sacrificing ground clearance. Seamless construction and a reinforced pan rail minimizes distortion and eliminates leaks and cracks, while the integral baffle ensures proper oil supply during hard acceleration. Threaded fittings are provided for the oil drain and to allow the pan to be set up for either ½" NPT or ⅜" NPT temperature sending devices. A magnetic drain plug and nylon sealing washer are included in the kit.

Note: A special oil pickup extension must be used to properly position the oil filter to ensure fluid is picked up under hard acceleration. Sonnax offers extension kits 28801-S09K, 28801-S10K and 28801-S11K to suit your specific application.
