

Features & Benefits:

- **Machined from medium carbon steel**
- **Hardened bushing journal for wear resistance**
- **Shaft comes with bushing and bearing already installed**

Part No.

96849-02K

1 Stator Support Shaft

Note: Bushing and bearing come assembled in shaft.

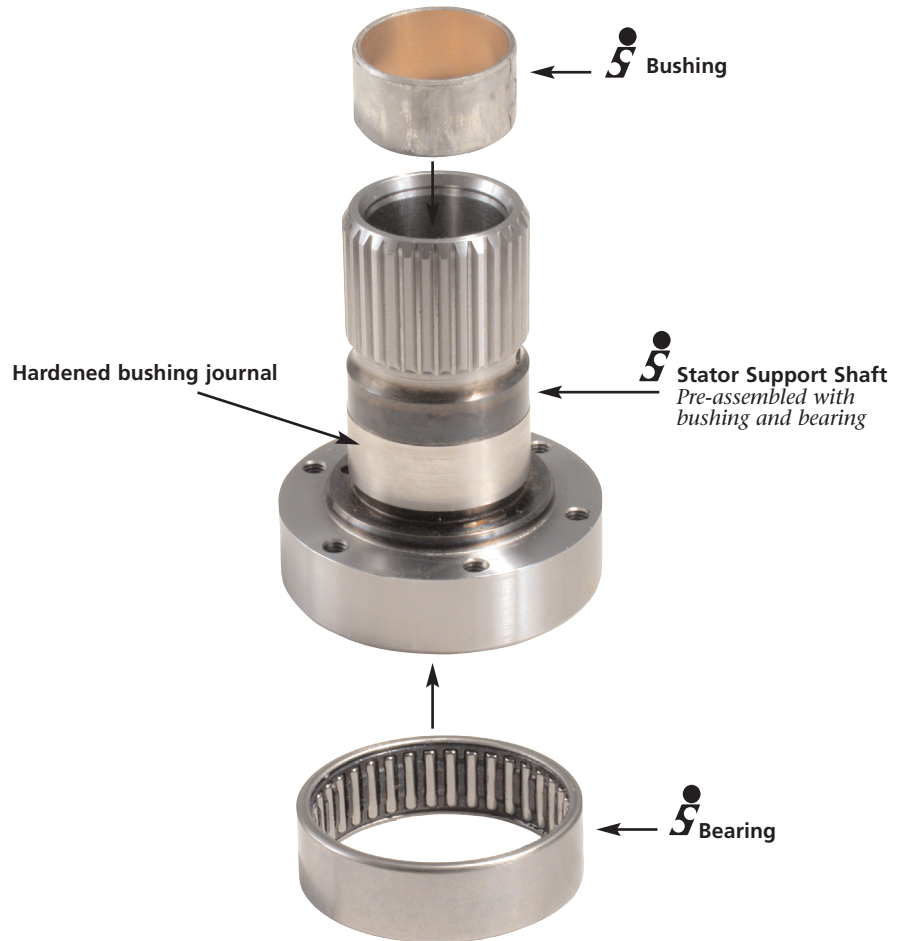

Also available:

Part No.

96849-01K

1 Stator Support Shaft

AXOD & E, AX4N,
AX4S '86-'03

PART SUMMARY

OEM shafts are manufactured from cast iron and frequently require replacement due to excessive wear at the converter bushing journal. The new Sonnax shaft **96849-02K** is machined from medium carbon steel and the bushing journal is hardened to resist wear.
