TORQUE CONVERTER PARTS CATALOG VOLUME 6 & ONLINE CATALOG AT WWW.SONNAX.COM

AL-WF-1 is:

Not currently catalogued and should be added to the Allison 1000/2000/2400 late 2006-Up version as Item Number 19, as well as the Fiber/Plastic Thrust Washer Details section on page 389.

Sonnax now offers **AL-WF-1**, a fiber washer for replacing OEM plastic thrust washers. The OEM thrust washers have a high failure rate when subjected to impact loading. Many rebuilders prefer the impact resistance of the fiber washer. The **AL-WF-1** is the same thickness as the OEM thrust washer.
